

# TARP SPECIFICATIONS

## POLY TARPS

**These tarps are far superior to the imports.**

The polyethylene advantage is that the material stays flexible in cold weather, is lightweight, tear and puncture resistant, and completely water and mildew proof. Poly tarps are woven of black, polyethylene fabric. This high density, reinforced weave is then coated with polyethylene film. This film further strengthens the tarp, and is treated to deter the deteriorating effects of high ultra-violet rays. The hem is stitched with heavy duty, rot resistant thread. The inner joining seams are heat welded to be completely waterproof. This superior construction increases strength, durability, and longevity. Individual tarps are attractively packaged with a descriptive label. Color: Blue & Gray/White.

### ***ULTRA STRONG POLY***

#### **Popular Uses:**

Excellent for equipment, hay, windbreaks, marine, or anywhere that a completely waterproof tarp is necessary. They are ideal for farm truck use or light short-run hauling.

Extra Thick Poly Fabric

Super strong 16mil. thick. Increases resistance to tears and punctures.

#### **D-Rings**

Quick, easy tie-down. Reduces wear on tarp. Conveniently spaced every 3-4 feet.

#### **Reinforced Patches**

Heavy triangular patches made of four layers of poly. Provides strong base for D-Rings or optional brass grommets.

#### **Rope-In-Hem**

Strong 3-ply rope further strengthens and deters wear.

#### **Order Number:**

TPU

---

## ***ALL-AMERICAN POLY***

### **Popular Uses:**

Completely waterproof covering for light stationary objects, such as woodpiles. Also, inexpensive ground covering for athletic fields.

### **Rope-In-Hem**

With added strength of rope and two rows of stitching. Provides double strength for grommets and prevents frayed edges. Tooth washer grommets are conveniently spaced every 3-4 feet.

---

## **CANVAS TARPS**

## ***REGAL STYLE CANVAS***

### **Popular Uses:**

Designed for heavy farm, truck and trailer use where a breathable fabric is necessary to prevent rot or rust on objects being protected. The 14.90 oz. Regal is great for long-run hauling. For light short-run hauling use the 12 oz. Regal.

### **D-Rings**

Quick, easy tie-down. Reduces wear on tarp.

### **Reinforced Patches**

Heavy Triangular patches made of four layers of canvas. Provides strong base for D-Rings.

### **Rope-In-Hem**

Strong 3-ply rope further strengthens and deters wear.

The D-Rings are spaced every 3-4 feet. Like all canvas tarps the Regal is specially treated to resist water and mildew. All seams are double stitched with heavy duty, rot

resistant thread. Individual tarps are attractively packaged with a descriptive label.  
Color: Olive Drab, Dark Brown.

- 12 oz....TCM12
- 14.90 oz....TCM15

## ***NOBLE***

### **Popular Uses:**

Our most economical canvas tarp. Excellent for indoor and outdoor stationary coverings where a breathable fabric is necessary to prevent rot or rust on objects being protected. The 8 oz. Noble is excellent for indoor dust protection. Heavier weight

Nobles are suitable for outdoor use.

### **1 1/2" Hem**

Gives double strength for grommets. Prevents frayed edges.

Tooth washer grommets are conveniently spaced every 3-4 feet. Like all canvas tarps the Noble is specially treated to resist water and mildew. All seams are double stitched with heavy duty, rot resistant thread. Individual tarps are attractively packaged with a descriptive label.

Color: Olive Drab, Dark Brown.

### **Order Number:**

8 oz....TCN08

10 oz....TCN10

12 oz....TCN12

14.90 oz....TCN15

\* Standard CANVAK treated canvas tarps are not recommended for covering porous items such as upholstered furniture, carpeting, etc. For these uses, where rub off may cause damage or discoloration, the ***dry finish tarp*** is recommended.

## **NEOPRENE COATED TARPS**

### **Popular Uses:**

This extra durable tarp is excellent for road vehicles and heavy-duty applications. This tarp is completely waterproof. All seams are sewn and sealed. Tooth washer grommets are spaced every 3 feet. Color: Black.

### **Order Number:**

16 oz....TVN16

## **VINYL LAMINATED TARPS**

---

### ***VINYL LAMINATE***

### **Popular Uses:**

This tarp is flame resistant treated. It is excellent for industrial plant coverings, partitions, athletic field and gym covers. They are also ideal for outdoor winter storage. Not recommended for road hauling.

This tarp offers 2-5 times the tear resistance of canvas. It is light in weight and completely waterproof. This super strong tarp stays flexible even in cold temperature, shapes easily and takes more abrasion and strain. Seams are heat sealed for

complete weather protection. Brass rustproof grommets are spaced every 3 feet. The 1 1/2" hem is stitched with heavy duty, rot resistant thread. The tarp will not shrink, but may stretch under tension. Color: Red, Green or Blue.

**Order Number:**

10 oz....TVL10

14 oz....TVL14

## VINYL COATED TARP

---

### *VINYL COATED*

**Popular Uses:**

The very best for truck covers and all other heavy duty covering applications exposed to abrasion, wind whip and high stress loads.

This material offers the utmost in waterproof, puncture, tear, tensile and adhesive qualities. All seams are heat sealed for weather protection. Hems are 2" wide and are reinforced with webbing. Brass rustproof grommets are spaced every 3 feet.

Color: Black, Green, Blue, Red, Orange, White.

**Order Number:**

18 oz....TVC18

22 oz....TVC22

## NET COVERS / TOP GRADE

PVC coated polyester is extra strong and durable, with tight weave. All joining seams are heat welded. Hems are 2" wide and are reinforced with webbing. Tooth washer grommets are spaced every 3 feet.

## SALVAGE COVERS

Our salvage covers are easily handled and provide perfect protection against water damage. Engineered to the last stitch to meet the demanding requirements of your salvage corps. Triple-thick flat hem provides extra strong base for grommets. Spur grommets are spaced every 3 feet with double grommets in corners. All covers are made finished size.

## DRY FINISH TARPS

Excellent for covering porous items such as upholstered furniture, carpeting, etc. Will not cause rub off damage or discoloration. Also excellent boat coverings and tent flys.
