REGULAR & 3-D STYLE PHOTO TUBES

Our 10' or 12' tall by 2½' diameter PHOTO TUBES and 3-D PHOTO TUBES are a great way to attract attention to your business without replacing the entire system when you want a new message! Replacement tubes can be ordered for different promotions. Your 4-color process message can easily and quickly be changed using your existing plug in fan base system. The digitally printed urethane coated nylon material tube Velcro's easily and quickly onto the base. We can design a 3-D PHOTO TUBE to have any type of design at the top of the tube. The tubes are internally illuminated by 4 CFL style light bulbs (not included) in the whisper quiet built-in blower folding base fan system. This feature provides great visibility attracting customers day or night. The tubes are designed to last under normal outdoor conditions 1 to 2 years. A sandbag area is included in the bottom of the fan base to secure the system in windy areas (sandbags not included). The carry case allows for easy transportation. Both the fans & tubes come with a limited one year warranty.

Weights & Box Sizes:

10' Photo Tube – Fan and tube – 30" by 12" by 20" – 42 lbs

12' Photo Tube – Fan and tube – 30" by 12" by 22" – 45 lbs
